

## LP-88

Item Number 4686697

Infrared thermometer for fast and contactless measurement of surface temperatures. The 8-point laser circle allows an exact marking of the measuring range, and thus increases the measuring accuracy.

- Infrared thermometer with pistol grip for non-contact temperature measurement
- 8-point laser circle for precise display of the measuring surface
- Instruction manual is printed directly on the device
- Optionally °C / °F
- With practical belt pouch
- Automatic switch-off after 15 seconds
