

UV-8-KIT

Item Number 4667634

A UV leak detection system with high quality, particularly bright and far-reaching UV contrast medium. With this set smallest leaks are made visible with the help of ultraviolet contrast medium. The UV-8-KIT contains a Glo-Gun Filler Gun Set with connection 1/4" SAE and car connection valve R134a, a GloLeak can, a UV lamp and safety goggles.

- In a sturdy plastic case
